

Defi Layers Audit Report

Deployed

Defi Layers is a decentralized finance (DeFi) platform that aims to create a new ecosystem for developers to build and deploy applications on top of Binance Smart Chain (BSC). The platform leverages the power of BSC to enable developers to create more secure and efficient applications.

Notable Information

- Contract Owner cannot stop or pause transactions UNLESS owner set maxtxn to 0%.
- Contract Owner cannot transfer tokens from specific address.
- Contract Owner cannot mint new tokens after deploying smart contract.
- Contract Owner cannot burn tokens from specific wallet.
