For Contract Address : 0x1c57eeed03f36d8954c6a54b0624e2c094841ef1

DISCLAIMER

Coinscope team does not guarantees that a project will not remove liquidity, sell off team supply, or any other exit scam strategy.

The information provided on this document by auditing the respective project is only for general information and should NOT be used as a reason to invest in any independent project.

Our goal is to run as many diagnostics we can with the information we have and is publicly available.

In the end of this audit we will objectively score this project based on the table of contents listed on https://www.coinscope.co/audit

Coinscope team under no circumstances will take any bribe or payment for manipulating the results of this audit. We will score and award a security Gem that will stay on this project's information for ever on our website.

Website Report

- Performance
- Best Practices
- Accessibility
- SEO ranking

The only minor issues found are:

- Serve images in next-gen formats. These suggestions can help your page load faster. They don't directly affect the performance score.
- Minimise main-thread work. Consider reducing the time spent parsing, compiling and executing JS. You may find delivering smaller JS payloads helps with this.

COINSCOPE

Team & KYC

Team was found on the website.

No social links were found or any information on the internet to match these photos with any real accounts. No KYC mention from any third party provider too was found.

This is not a blocker as many project owners will prefer to hide their identities and decide to come forward later.

Award

Our Award system

- 0-49 score points award you with Bronze Badge - high risk.
- 50-89 score points award you with Silver Badge - medium/low risk.
- 90-100 score points award you with Gold Badge - low risk.

Your Score

MBA is a medium risk project. The smart contract analysis showed no compiler errors and only 1 major threat issue. The Owner can change fees without any limitations. The contract is minted/forked from Pinksale finance and has a lot of useful tokenomics, including auto generating liquidity protocol, buyback and reflections to holders. The total fees are quite high compared to similar contracts. The contract risks can be eliminated by renouncing ownership.
