NOELA AUDIT

BEP-20 TOKEN

COINSCOPE

Prepared by: Coinscope team
For Contract Address : 0x37eBB7138122DF4954d14144b3a8E75279D89E3B

DISCLAIMER

Coinscope team does not guarantees that a project will not remove liquidity, sell off team supply, or any other exit scam strategy.

The information provided on this document by auditing the respective project is only for general information and should NOT be used as a reason to invest in any independent project.

Our goal is to run as many diagnostics we can with the information we have and is publicly available.

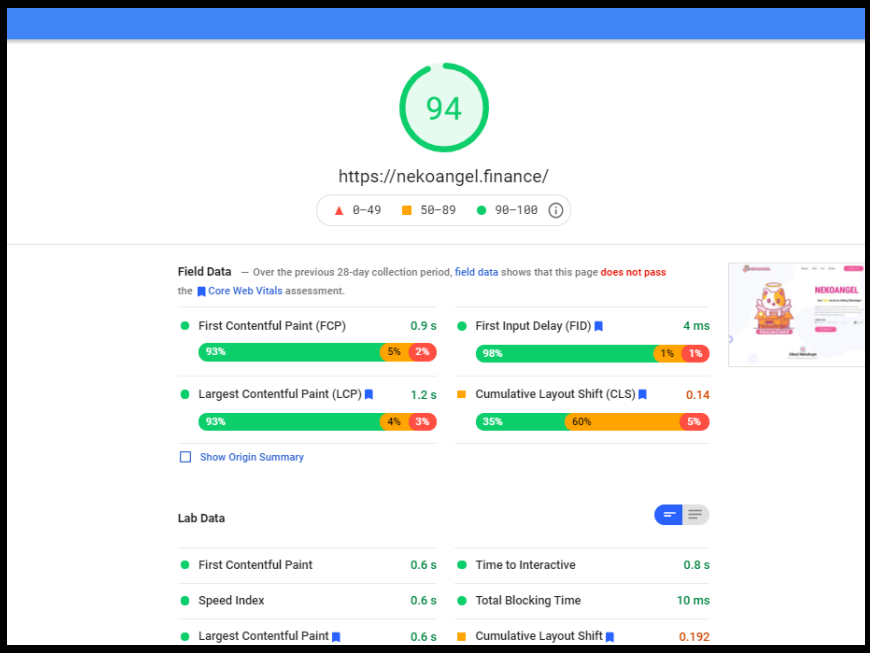

In the end of this audit we will objectively score this project based on the table of contents listed on https://www.coinscope.co/audit

Coinscope team under no circumstances will take any bribe or payment for manipulating the results of this audit. We will score and award a security Gem that will stay on this project's information for ever on our website.

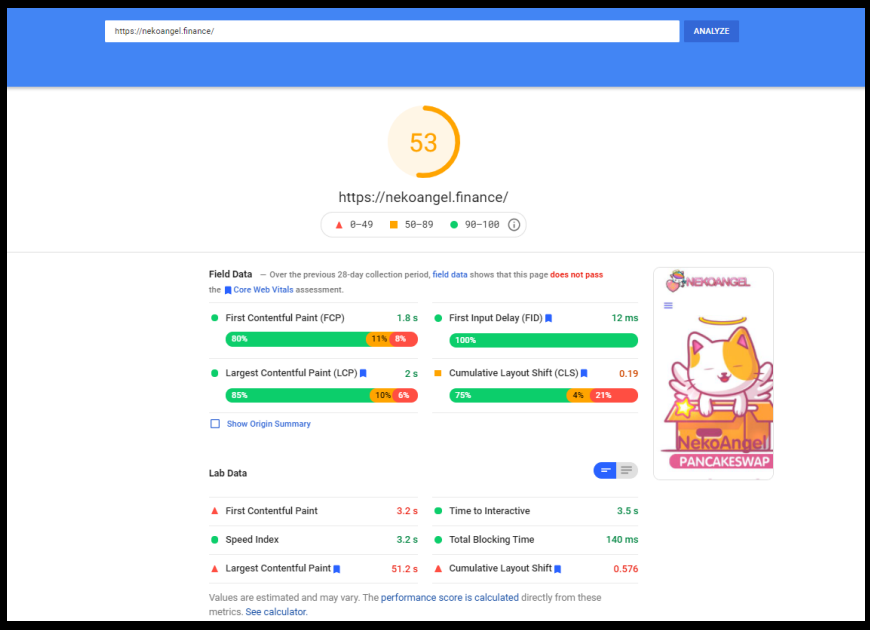

COINSCOPE

Website Report

- Performance
- Best Practices
- Accessibility
- SEO ranking

The only issues found are:

- Mobile screen largest Contentful paint takes longer than expected
- Gifs videos should be converted into mp4 for performance optimization.
- First Contentful paint takes longer than expected
- Static assets should be served with an efficient cache policy

COINSCOPE

Roadmap

Roadmap was found on the website.

According to their phase 1 goals, they need to list on CoinMarketCap and CoinGecko, and also do Community Marketing Campaign in order to complete first phase.

Potential dangers for remaining tasks

- CoinmarketCap requires high trading volume
- CoinGecko requires high trading volume

The Project is on $130,029 MarketCap at the time it is being audited, hence a lot of marketing and growth will be required to hit that goals.

COINSCOPE

Team visibility

The team was not found on the website, there are no linkedin or social links for them, but its not a blocker as they can choose to come forward later.

The community is very friendly, there is no FUD in the telegram group and they are very supportive to new people joining and asking questions.

Contract & Tech

- Contract code is published and verified on BSCAN
- Most of Liquidity Pool is Locked
- Contract has Adavanced tokenomics/reward system

```
contract NOELA is ERC20, Ownable {
    using SafeMath for uint256;

    IUniswapV2Router02 public uniswapV2Router;
    address public immutable uniswapV2Pair;

    bool private swapping;

    NOELADividendTracker public dividendTracker;

    address public liquidityWallet;
    address public operationWallet;

    uint256 public swapTokensAtAmount = 200000 * (10**18);

    uint256 public immutable BNBRewardsFee;
    uint256 public immutable liquidityFee;
    uint256 public immutable operationFee;
    uint256 public immutable totalFees;

    // sells have fees of 12 and 6 (10 * 1.2 and 5 * 1.2)
    // uint256 public immutable sellFeeIncreaseFactor = 120;

    // use by default 300,000 gas to process auto-claiming dividends
    uint256 public gasForProcessing = 300000;

    // timestamp for when the token can be traded freely on PancakeSwap
    uint256 public tradingEnabledTimestamp = 1626080400; // Date and time (GMT): Monday, July 12, 2021 9:00:00 AM

    uint256 public penaltyDisableBlock = 10585551;

    // exclude from fees and max transaction amount
    mapping(address => bool) private _isExcludedFromFees;

    // addresses that can make transfers before presale is over
    mapping(address => bool) private canTransferBeforeTradingIsEnabled;

    // store addresses that a automatic market maker pairs. Any transfer *to* these addresses
    // could be subject to a maximum transfer amount
    mapping(address => bool) public automatedMarketMakerPairs;

    // rate limit, allow only 1 tx per address per block
    mapping(address => mapping(uint256 => bool)) private _rateLimit;

    event UpdateDividendTracker(
        address indexed newAddress,
        address indexed oldAddress
    );

    event UpdateUniswapV2Router(
        address indexed newAddress,
        address indexed oldAddress
    );
```

COINSCOPE

Smart Contract Results

- Integer Underflow
- Integer Overflow
- Parity Multisig Bug
- Callstack Depth Attack
- Transaction-Ordering Dependency
- Timestamp Dependency
- Re-Entrancy

Domain Info

Domain Name: nekoangel.finance
Registry Domain ID: dd591fed6c9044c8b39bc610eac5a96a-DONUTS
Registrar WHOIS Server: whois.namecheap.com
Registrar URL: https://www.namecheap.com/
Updated Date: 2021-07-02T03:17:49Z
Creation Date: 2021-06-27T03:17:26Z
Registry Expiry Date: 2022-06-27T03:17:26Z
Registrar: NameCheap, Inc.

The domain is bought almost 1 month before the analysis of this audit, and the project was launched on 23 July .

This is generally a good sign as most altcoins will try to exit and sell/dump as soon as they launched because they can't handle operations or don't want to spend that time on them and its easier to create a new one.

The fact that the community is still alive and they are looking for ways to expand their marketing is usually a big plus for the token.

Award

Our Award system

- 0-49 score points award you with Bronze Badge - high risk.
- 50-89 score points award you with Silver Badge - low risk.
- 90-100 score points award you with Gold Badge - extremely low risk.

Your Score

NOELA project is low risk, with a good community and a great potential. There is room for improvements on marketing of the project. It needs to grow in holders and increase its trading volume in order to hit the next milestone in their roadmap.
