# FDOGE AUDIT

**BEP-20 TOKEN**

COINSCOPE

Prepared by: Coinscope team

For Contract Address : 0x7e5179422f1a5cec8473bc4e5d0305d0d1f9e7bd

# DISCLAIMER

Coinscope team does not guarantees that a project will not remove liquidity, sell off team supply, or any other exit scam strategy.

The information provided on this document by auditing the respective project is only for general information and should NOT be used as a reason to invest in any independent project.

Our goal is to run as many diagnostics we can with the information we have and is publicly available.

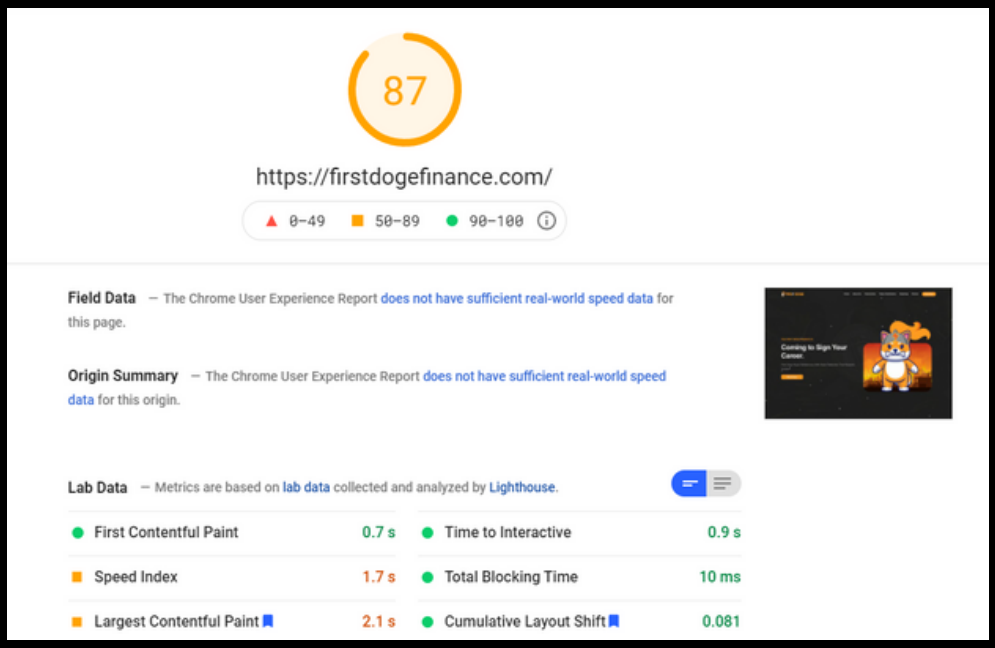

In the end of this audit we will objectively score this project based on the table of contents listed on https://www.coinscope.co/audit

Coinscope team under no circumstances will take any bribe or payment for manipulating the results of this audit. We will score and award a security Gem that will stay on this project's information for ever on our website.

# Website Diagnostics

## Desktop Score

## Mobile Score

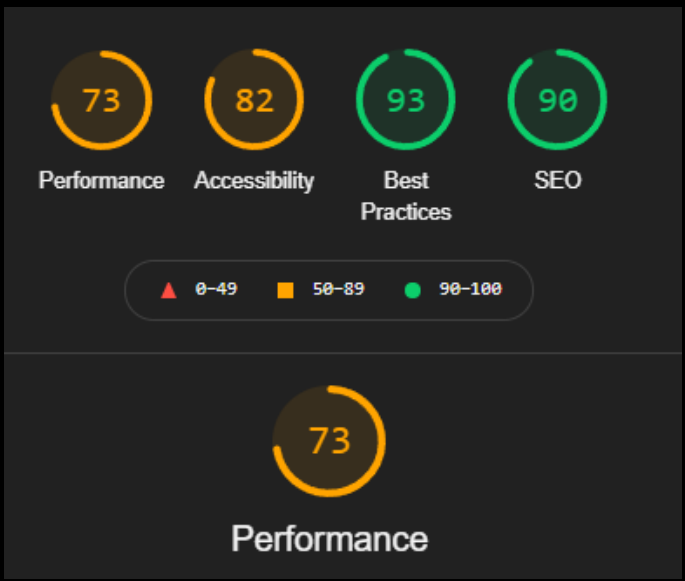

COINSCOPE

# Website Report

- Performance
- Best Practices
- Accessibility
- SEO ranking

The only minor issues found are:

- Largest Contentful Paint took longer than expected.
- Properly size images. Serve images that are appropriately-sized to save cellular data and improve load time.
- Serve images in next-gen formats. Image formats like WebP and AVIF often provide better compression than PNG or JPEG, which means faster downloads and less data consumption.

COINSCOPE

# Roadmap

Roadmap was found on the website and is displayed above. All milestones are on track so far and they are heading to the next phase of their plan.

## Potential dangers for remaining Roadmap targets

- Listing on CoinMarketCap requires a lot of trading volume and holders.
- Listing on Coingecko requires a lot of trading volume and holders.

COINSCOPE

# Team analysis

Team was found on the whitepaper and is shown above.

They do not indicate a real profile or name, and have no social links attached to them.

This is not a blocker as many project owners choose to come forward later with an AMA or with links to their real profiles (Linkedin would be useful).

# Contract & Tech

- Contract code is published and verified on BSCAN
- Contract contains burn/deflation mechanism

```
contract firstdogefinance is Context, IBEP20, Ownable {
    using SafeMath for uint256;
    using Address for address;

    mapping (address => uint256) private _rOwned;
    mapping (address => uint256) private _tOwned;
    mapping (address => mapping (address => uint256)) private _allowances;

    mapping (address => bool) private _isExcluded;
    mapping (address => bool) private _isCharity;
    address[] private _excluded;

    string  private _NAME;
    string  private _SYMBOL;
    uint256   private _DECIMALS;
    address public FeeAddress;

    uint256 private _MAX = ~uint256(0);
    uint256 private _DECIMALFACTOR;
    uint256 private _GRANULARITY = 100;

    uint256 private _tTotal;
    uint256 private _rTotal;

    uint256 private _tFeeTotal;
    uint256 private _tBurnTotal;
    uint256 private _tCharityTotal;

    uint256 public     _TAX_FEE;
    uint256 public    _BURN_FEE;
    uint256 public _CHARITY_FEE;

    // Track original fees to bypass fees for charity account
    uint256 private ORIG_TAX_FEE;
    uint256 private ORIG_BURN_FEE;
    uint256 private ORIG_CHARITY_FEE;

    constructor (string memory _name, string memory _symbol, uint256 _decimals, uint256 _supply, uint256 _txFee,uint256 _burnFee,uin
        _NAME = _name;
        _SYMBOL = _symbol;
        _DECIMALS = _decimals;
        _DECIMALFACTOR = 10 ** uint256(_DECIMALS);
        _tTotal =_supply * _DECIMALFACTOR;
        _rTotal = (_MAX - (_MAX % _tTotal));
        _TAX_FEE = _txFee* 100;
         BURN_FEE =  burnFee * 100;
```

# Domain info

Registrant Contact Information:

Name Doğukan  Tayan
Organization None
Address TR
City TR
State / Province 34
Postal Code 34000
Country TR
Phone +90.5359732397

The domain is bought almost 22 days before the analysis of this audit and is set for renew in the next year.

The address of the domain owner is Tayan. The company info, the domain provider, and the tech contact are registered to the same address.

# Award

## Our Award system

- 0-49 score points award you with Bronze Badge - high risk.
- 50-89 score points award you with Silver Badge - medium/low risk.
- 90-100 score points award you with Gold Badge - low risk.

## Your Score

FDOGE is a medium/low risk project, with a friendly and small community. The smart contract analysis showed no warnings. The Contract is a Safemoon-alike reflections contract with charity, burn and tax fees. The project is a Meme Token that aims to improve the communication between crypto market owners and moderators through their upcoming mobile application.
The team should consider an AMA or coming forward with their real identities to provide confidence and trust to their investors.
