SHIBO AUDIT

BEP-20 TOKEN

COINSCOPE

Prepared by: Coinscope team
For Contract Address : 0x6395E3322bcA53B46eE11a569Ff21C388c31F4B9

DISCLAIMER

Coinscope team does not guarantees that a project will not remove liquidity, sell off team supply, or any other exit scam strategy.

The information provided on this document by auditing the respective project is only for general information and should NOT be used as a reason to invest in any independent project.

Our goal is to run as many diagnostics we can with the information we have and is publicly available.

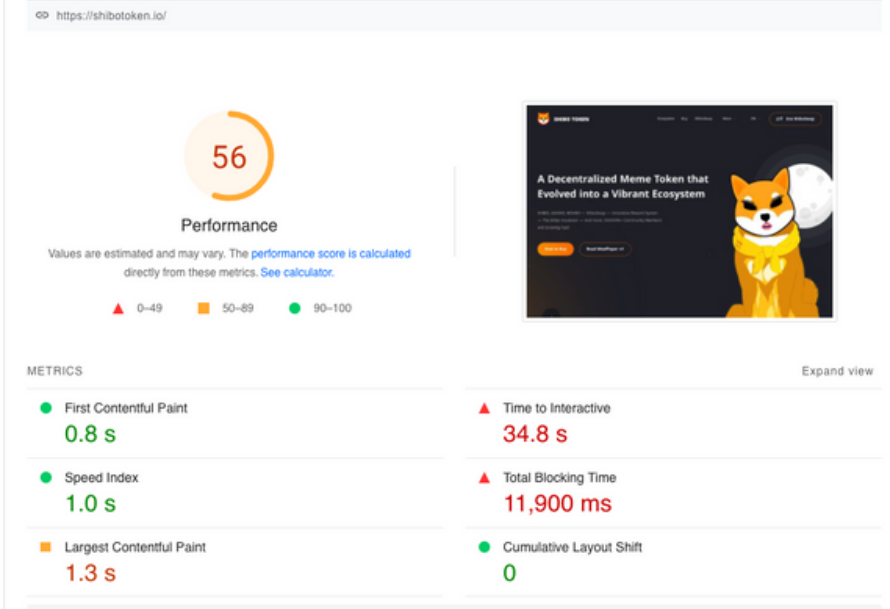

In the end of this audit we will objectively score this project based on the table of contents listed on https://www.coinscope.co/audit

Coinscope team under no circumstances will take any bribe or payment for manipulating the results of this audit. We will score and award a security Gem that will stay on this project's information for ever on our website.

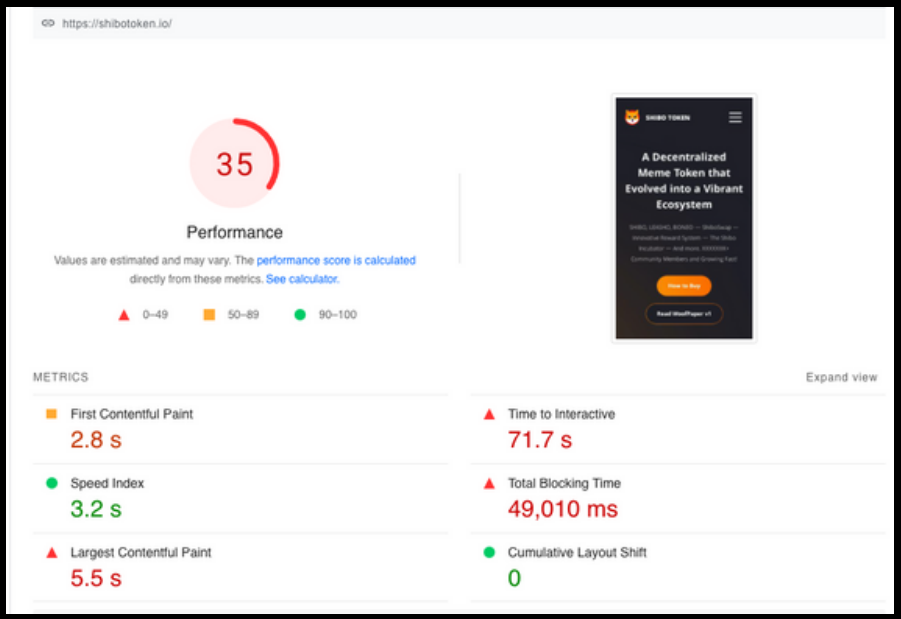

COINSCOPE

Website Report

- Performance
- Best Practices
- Accessibility
- SEO ranking

The only minor issues found are:

- Minimise main-thread work. Consider reducing the time spent parsing, compiling and executing JS. You may find delivering smaller JS payloads helps with this.
- Eliminate render-blocking resources. Resources are blocking the first paint of your page. Consider delivering critical JS/CSS inline and deferring all non-critical JS/styles

COINSCOPE

Roadmap

Roadmap was not found on the website or Whitepaper.

As stated by the team:

Our roadmap will remain top secret to ensure our continued advantage in this highly competitive space, but releasing a basic overview will allow our holders to understand the intentions of the core development team.

We will standardize Shibo Inu products and integrate them into the global marketplace for long term success.

This will look like launching our Artist Incubator and upcoming NFT project, releasing ShiboSwag, and even potentially actualising real-world applications that move us beyond the digital landscape.

Team & Whitepaper

Team was not found on the website.

This is not a blocker as many project owners will prefer to hide their identities and decide to come forward later.

Whitepaper was found on the website.

The team has spend a lot of time drafting this high quality whitepaper with attention to detail.

Shibo's ecosystem includes 2 more tokens **LEASHO** and **BONEO.** When the user provides his SHIBO tokens to liquidity of ShiboSwap, he can earn BONEO.

LEASHO is the second token incentivised on ShiboSwap and will offer lucrative rewards for the holders providing its liquidity

Contract & Tech

- Contract is verified on BSCSCAN.
- Contract owner cannot modify fees or call any malicious function.

```
contract standardToken is Context, IERC20, IERC20Metadata,Ownable {
    mapping (address => uint256) private _balances;

    mapping (address => mapping (address => uint256)) private _allowances;
    bool public generatedUsingDxMint = true;
    uint256 private _totalSupply;
    bool public mintingFinishedPermanent = false;
    string private _name;
    string private _symbol;
    uint8 private _decimals;
    address public _creator;
    /**
     * @dev Sets the values for {name}, {symbol} and {decimals}.
     *
     *
     * All two of these values are immutable: they can only be set once during
     * construction.
     */
    constructor (address creator_,string memory name_, string memory symbol_,uint8 decimals_, uint256 tokenSupply_) {
        _name = name_;
        _symbol = symbol_;
        _decimals = decimals_;
        _creator = creator_;

        _mint(_creator,tokenSupply_);
        mintingFinishedPermanent = true;
    }

    /**
     * @dev Returns the name of the token.
     */
    function name() public view virtual override returns (string memory) {
        return _name;
    }

    /**
     * @dev Returns the symbol of the token, usually a shorter version of the
     * name.
     */
    function symbol() public view virtual override returns (string memory) {
        return _symbol;
    }

    /**
     * @dev Returns the number of decimals used to get its user representation.
     * For example, if `decimals` equals `2`, a balance of `505` tokens should
     * be displayed to a user as `5,05` (`505 / 10 ** 2`).
     *
     * Tokens usually opt for a value of 18, imitating the relationship between
     * Ether and Wei. This is the value {ERC20} uses, unless this function is
     * overridden;
     *
     * NOTE: This information is only used for _display_ purposes: it in
```

Domain info

Domain Name: shibotoken.io
Registry Domain ID: 276f3ca2b3ef491ab4943f0fa0cba838-DONUTS
Registrar WHOIS Server: whois.registrar.eu
Registrar URL: http://www.registrar.eu
Updated Date: 2021-11-20T10:52:41Z
Creation Date: 2021-11-15T10:52:35Z
Registry Expiry Date: 2022-11-15T10:52:35Z
Registrar: Hosting Concepts B.V. d/b/a Registrar.eu
Registrar IANA ID: 1647

The domain is bought almost 20 days before the analysis of this audit and is set for renew in the next year.

There is a registered company connected to the domain ownership, leading to a physical person if traced back to the hosting provider.

This is a very good sign as most project owners will choose the privacy options to protect themselves in case they early exit or scam their investors.

Award

Our Award system

- 0-49 score points award you with Bronze Badge - high risk.
- 50-89 score points award you with Silver Badge - medium/low risk.
- 90-100 score points award you with Gold Badge - low risk.

Your Score

SHIBO is a low risk project with a small and growing community. The smart contract analysis showed no warnings. It is basic ERC-20 template without any additional functionality. This is a good sign since it cannot harm the users in any case. The Whitepaper is a high quality summary of the SHIBO ecosystem and the features/rewards included. The domain is bought by a Registered company and there are plans for a lot of promising development milestones in the ShiboSwap. Marketing is recommended to raise people awareness for this project.

Disclaimer

All the content provided in this document are for general information only and should not be used as a financial advice or a reason to buy any investment.

Coinscope team provides no guarantees against the sale of team tokens or the removal of liquidity by the project audited in this document. Always Do your own research and protect yourselves from being scammed.

Coinscope team has audited this project for general information and only expresses their opinion based on similar projects and checks from popular diagnostic tools. Under no circumstances did Coinscope receive a payment to manipulate those results or change the awarding badge that we will be adding in our website.

Always Do your own research and protect yourselves from scams. This document should not be presented as a reason to buy or not buy any particular token.

Coinscope team disclaims any liability for the resulting losses.
