Website Report

- Performance
- Best Practices
- Accessibility
- SEO ranking

The only minor issues found are:

- Reduce unused JavaScript. Reduce unused JavaScript and defer loading scripts until they are required to decrease bytes consumed by network activity.
- First Contentful Paint 3G marks the time at which the first text or image is painted while on a 3G network

Roadmap

Roadmap was found on the website and is displayed above. They are on the second phase of their plan, and they have healthy and doable milestones, not overpromising like most projects. They are currently working on marketing and influencers, and after their successful launch they are focused on doxxing, building a NFT marketplace and game Development.

Potential dangers for remaining Roadmap targets

- Listing on CMC&CG requires a lot of trading volume and holders.
- A lot of development will be needed to fulfil those targets. More hires should take place.

Team & Whitepaper

Team was not found on the website.

This is not a blocker as many project owners will prefer to hide their identities and decide to come forward later.

Whitepaper was not found on the website.

As started earlier the team will create and deploy their whitepaper on their next phase of the roadmap.

Contract & Tech

⚠ Contract owner can manipulate fees

⚠ Contract contains a *transferForeignToken* function that can be used to take one holder's balance into someone else.

⚠ Contract contains a *sweep* function that can be used to take all the contract balance(fees accumulated) into into any wallet.

Your Score

MWORLD is a medium risk project, with a small community and a very interesting roadmap. The smart contract analysis showed that there is a function that can be used by the owner to transfer any amount of tokens to another wallet. Also there is a *sweep function* that takes all the fees accumulated by the contract and transfers them to any wallet. This risk can be eliminated by renouncing ownership. Hosting an AMA or doxxing the team is highly advised to provide more confidence and trust to the community.
