SDOGE AUDIT

BEP-20 TOKEN

COINSCOPE

Prepared by: Coinscope team

For Contract Address : 0xF7917544f756ef520F11d9422Df92c59a3bE25Ac

DISCLAIMER

Coinscope team does not guarantees that a project will not remove liquidity, sell off team supply, or any other exit scam strategy.

The information provided on this document by auditing the respective project is only for general information and should NOT be used as a reason to invest in any independent project.

Our goal is to run as many diagnostics we can with the information we have and is publicly available.

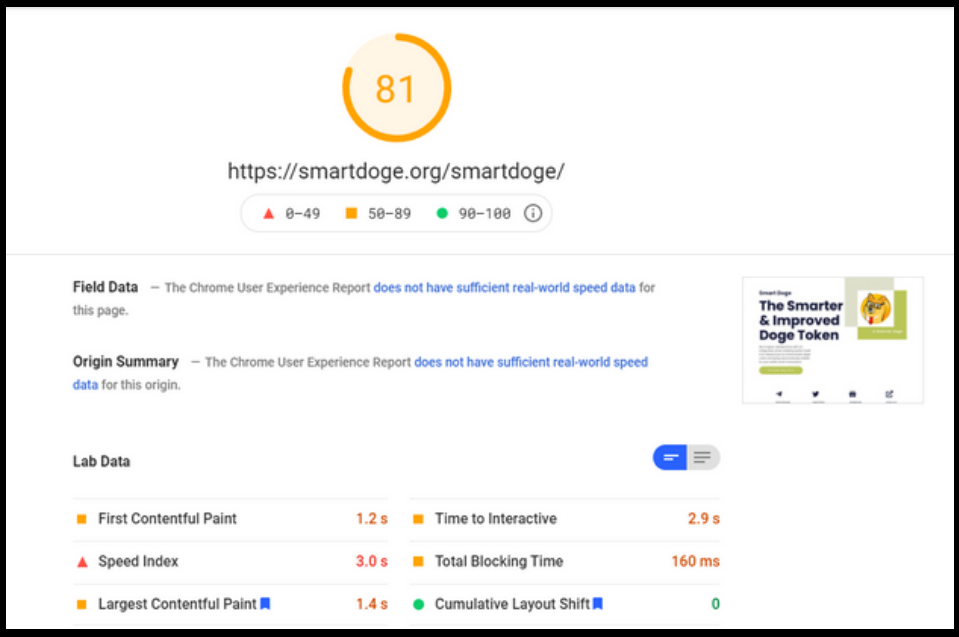

In the end of this audit we will objectively score this project based on the table of contents listed on https://www.coinscope.co/audit

Coinscope team under no circumstances will take any bribe or payment for manipulating the results of this audit. We will score and award a security Gem that will stay on this project's information for ever on our website.

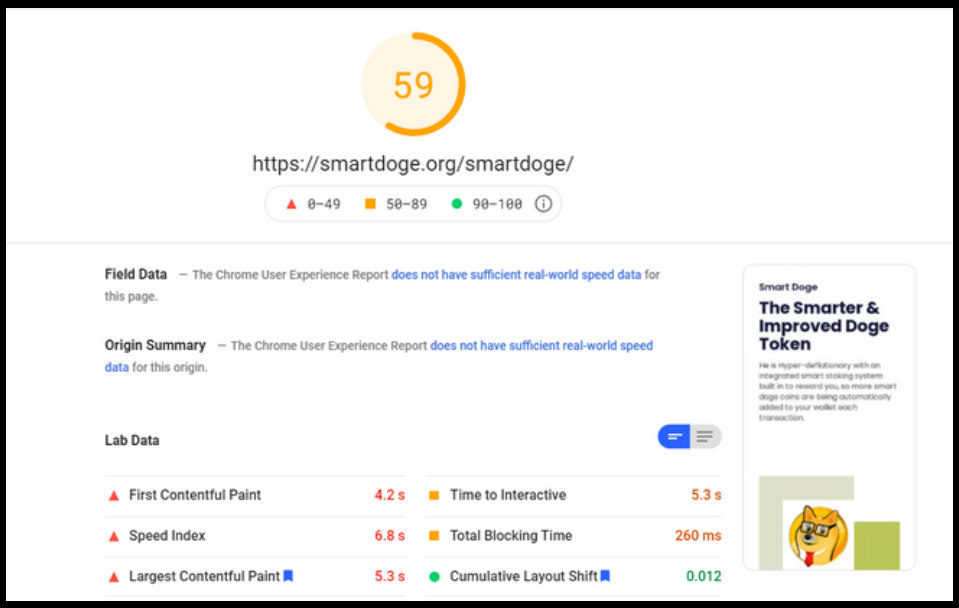

COINSCOPE

Website Report

- Performance
- Best Practices
- Accessibility
- SEO ranking

The only minor issues found are:

- Mobile screen first Contentful paint takes longer than expected
- Largest Contentful paint takes longer than expected
- Speed Index needs to improve (its how google crawls, low speed index means you will try to google from incognito for smartdoge and you will not find it in the first results)

COINSCOPE

Roadmap

Potential dangers for remaining Roadmap targets

- CoinmarketCap requires high trading volume
- CoinGecko requires high trading volume
- Applying for new exchange listings requires liquidity to be provided, and some listings will want a large amount of payment (some markets can go up to 1BTC).

COINSCOPE

Team visibility

No team was found on the website.

No whitepaper was found on the website.

Team prefers to stay anonymous and has mentioned that will come forward at $10M Marketcap. This is not a blocker as most projects choose to protect their identities.

The community is very friendly, they answer questions to new users and were very polite to people asking the same things over and over.

Contract & Tech

- Contract code is published and verified on BSCAN
- No Major warning/error found
- Contract has Burn/deflation mechanism

```
constructor(
    string memory _NAME,
    string memory _SYMBOL,
    uint256 _DECIMALS,
    uint256 _supply,
    uint256 _txFee,
    uint256 _lpFee,
    uint256 _DexFee,
    address routerAddress,
    address feeaddress,
    address tokenOwner,
    address service
) public payable {
    _name = _NAME;
    _symbol = _SYMBOL;
    _decimals = _DECIMALS;
    _tTotal = _supply * 10**_decimals;
    _rTotal = (MAX - (MAX % _tTotal));
    _taxFee = _txFee;
    _liquidityFee = _lpFee;
    _previousTaxFee = _txFee;

    _devFee = _DexFee;
    _previousDevFee = _devFee;
    _previousLiquidityFee = _lpFee;
    _maxTxAmount = ((_tTotal * 5) / 1000) * 10**_decimals;
    numTokensSellToAddToLiquidity = ((_tTotal * 5) / 10000) * 10**_decimals;
    _devWalletAddress = feeaddress;

    _rOwned[tokenOwner] = _rTotal;

    IUniswapV2Router02 _uniswapV2Router = IUniswapV2Router02(routerAddress);
    // Create a uniswap pair for this new token
    uniswapV2Pair = IUniswapV2Factory(_uniswapV2Router.factory())
        .createPair(address(this), _uniswapV2Router.WETH());

    // set the rest of the contract variables
    uniswapV2Router = _uniswapV2Router;

    //exclude owner and this contract from fee
    _isExcludedFromFee[tokenOwner] = true;
    _isExcludedFromFee[address(this)] = true;

    _owner = tokenOwner;
    payable(service).transfer(msg.value);
    emit Transfer(address(0), tokenOwner, _tTotal);
}
```

COINSCOPE

Smart Contract Results

- Integer Underflow
- Integer Overflow
- Parity Multisig Bug
- Callstack Depth Attack
- Transaction-Ordering Dependency
- Timestamp Dependency
- Re-Entrancy

Domain Info

Expires On 2022-06-24
Registered On 2021-06-24

Address: Kalkofnsvegur 2
City: Reykjavik
State/Province: Capital Region
Postal Code: 101
Country :IS
Phone: +354.4212434

The domain is bought almost 1.5 months before the analysis of this audit and is set for renew in the next year.

Billing info was found on the domain name registration.

This is generally a good sign as most altcoins will try to exit and sell/dump as soon as they launch.

The fact that there is no privacy on the domain means the project creators can be traced back from the address displayed.

Award

Our Award system

- 0-49 score points award you with Bronze Badge - high risk.
- 50-89 score points award you with Silver Badge - medium/low risk.
- 90-100 score points award you with Gold Badge - low risk.

Your Score

SDOGE is a low risk project, with a friendly community and a great potential. There is room for improvements on the marketing side and the team should be more transparent. The smart contract analysis showed it is a Safemoon clone with a few differentiations on the tokenomics. (team receives 2% of taxes with the use of _takeDev funcion). No Major issues/errors found on the smart contract.
