Website Report

- Performance
- Best Practices
- Accessibility
- SEO ranking

Issues found on the website:

- Largest Contentful paint takes a lot longer than expected
- Speed index does not score as expected
- Serve images that are appropriately-sized to save cellular data and improve load time
- Enable text compression
- Avoid enormous network payloads

COINSCOPE

Roadmap

Potential dangers for remaining Roadmap targets

- CoinmarketCap requires high trading volume
- CoinGecko requires high trading volume
- Creating SkyMoon DEX will require larger development team

COINSCOPE

Team and Whitepaper

Team was not found on the website.

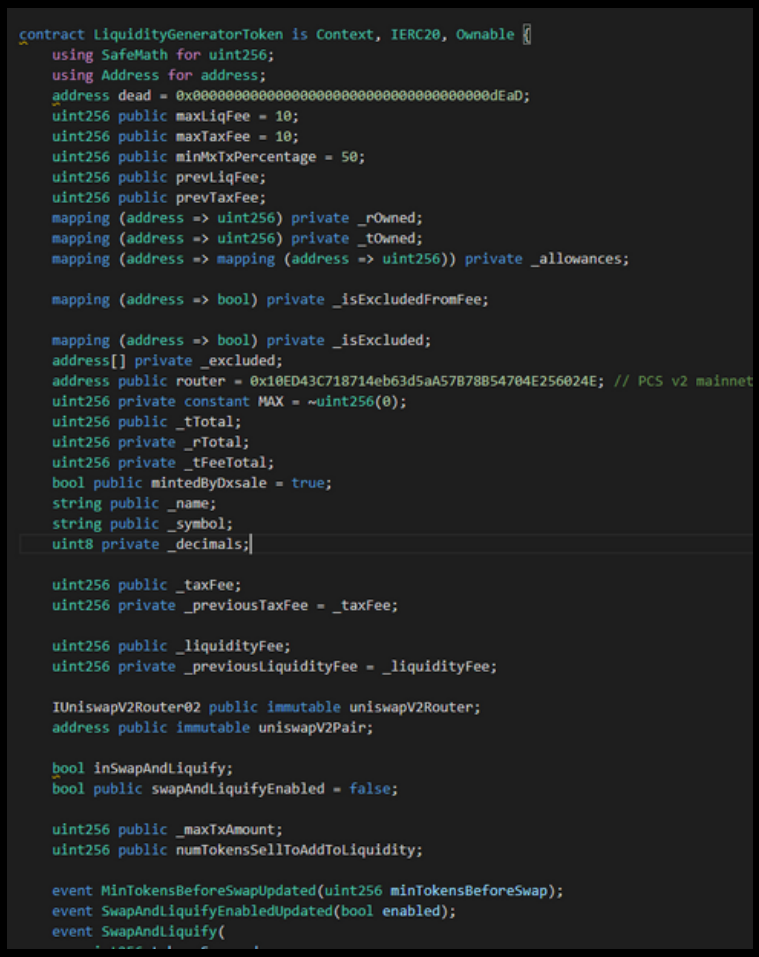

This is not a blocker as many project owners choose to protect their identities and come forward later. It has been indeed stated on their roadmap that they plan an AMA to introduce the team.

Whitepaper was not found on the website.

Whitepaper is also planned to be published later according to the roadmap on the website.

Award

Our Award system

- 0-49 score points award you with Bronze Badge - high risk.
- 50-89 score points award you with Silver Badge - medium/low risk.
- 90-100 score points award you with Gold Badge - low risk.

Your Score

SMT is a medium risk project, with a small and friendly community. There is room for improvements on the marketing side and the team should spend some time to optimize the website, as it is the first thing new investors will look at. The smart contract is minted by DXSALE and the analysis showed it is a Safemoon clone with a few differentiations on the tokenomics. A lot of holders and trading volume will be required to reach the next roadmap milestones.
